DONE

## SETTING THE TIME

Tap screen and  
Press  
MENU

Press  
HELP & SETTINGS

Press  
CHANGE TIME

Set the On Time using  
the up and down arrows  
Press DONE

## SETTING THE DATE

## TRANSCIVER UNIT (BOILER MOUNTED)

Transceiver Model may vary dependent on boiler model

### 1 Wireless Connection to Programmable Room Thermostat

If this light is off then there is no connection between the boiler and the Room Thermostat

Try replacing the batteries in the Room Thermostat

### 2 Electrical Supply

If this light is off then there is no power to the transceiver

Check that the isolation switch to the boiler is switched on

### 3 Boiler Connection

If this light is off then there is no connection from the boiler to the transceiver

The installer should check the wiring from the boiler to the transceiver

## BATTERY REPLACEMENT

- Unclip the Thermostat from its cradle by sliding the Thermostat upwards
- Using a flat bladed screwdriver, pop off the rear cover
- Replace batteries
- Refit battery cover

The screen may go blank, if so gently press the screen or rotate the outer plastic wheel to wake the Thermostat

Batteries should operate for approximately 18 to 24 months. Only good quality alkaline batteries are to be used

## CLEANING

For normal cleaning simply dust with a dry cloth. To remove stubborn marks and stains, wipe with a damp cloth and finish off with a dry cloth. DO NOT use abrasive cleaning materials.

### WEEE DIRECTIVE 2012/19/EC

#### Waste Electrical and Electronic Equipment Directive

- At the end of the product life, dispose of the packaging and product in a corresponding recycling centre.
- Do not dispose of the unit with the usual domestic refuse.
- Do not burn the product.
- Remove the batteries.
- Dispose of the batteries according to the local statutory requirements and not with the usual domestic refuse.
